## PERCENTAGE OF STUDENTS ENTERING AN ENGINEERING OR RELATED FIELD OF STUDY

“The apprentice’s knowledge was awesome and made me realise there is so much to learn when doing a trade.”

- Student, Spinifex State College

“A great opportunity for industry to interact with the next generation of young minds coming through our local educational systems. It allows our industry representatives and their employers to give back to the local communities that support us.”

-Glencore Coal representative

“This is a fantastic program providing a talent pipeline of skilled and motivated high school graduates.”

- Shannon Fentiman Queensland Minister for Training & Skills Development
