

ORESOME MINDS CAMP

2024

OPPORTUNITIES FOR YEAR 11 & 12 STUDENTS INTERESTED IN STEM UNIVERSITY PATHWAYS

The Oresome Minds Camp, run by QMEA in conjunction with its major sponsor Glencore MIM, is an exceptional opportunity for students aspiring to work in a STEM career within the resources sector. Students gain hands-on experience through a week long collaborative project in Mount Isa.

Working alongside industry professionals, students attending this five day camp will meet other like-minded students from across the network of QMEA schools, engage in a program of work that develops a solution to a real-world problem, as identified by professionals, and enjoy the social activities organised by the QMEA team.

"I enjoyed being able to see and understand what engineers do, and it was a great taster of what a job in engineering would be like."

- Year 11 Student, Kelvin Grove State College,
Mount Isa Oresome Minds Camp

"I enjoyed the week and the overall work experience feel of the camp. It was a really awesome opportunity and great for my resume!"

- Year 12 Student, The Cathedral College (Rockhampton),
Mount Isa Oresome Minds Camp

"Our project helped me see a snapshot of the role of engineers on site."

- Year 11 Student, Bundamba State Secondary College, Mount Isa Oresome Minds Camp

» APPLY NOW!

Positions in this camp are limited and are selected on merit. Applications close 5pm Monday 29th April 2024.
