

Apply Now! QMEA Student Ambassadors

The Program

Twenty students from across the QMEA network are selected as QMEA Student Ambassadors each year. You will attend an all-expenses paid Ambassador Camp in late November/early December 2026 in Brisbane – visiting resources sector companies, tertiary and training institutions to find out more about pathways into Queensland's resources sector. During the camp, you'll also attend the QMEA End of Year Breakfast for your formal Ambassador Investiture. Throughout Year 12, QMEA will connect with you through a series of webinars to build skills and awareness about career pathways, scholarship information, apprenticeship/traineeship applications, advancements in the resources sector and provide you with other exclusive information and opportunities.

QMEA Ambassadors are our ambassadors in your school – you will help to promote a range of activities, including QMEA workshops, camps and other initiatives, while being invited to participate in local resources industry opportunities as they arise.

Who Should Apply – for Year 12 students in 2027

High-achieving current Year 11 students from QMEA partner schools, who are seeking a trade or professional (University) pathway into the resources sector after school. This is a highly-competitive program with limited places available.

You will need to be enrolled full-time in a QMEA school and intend to finish Year 12 in 2027, be an Australian resident and be willing to act as a QMEA Ambassador for a 12-month period and be available to attend the QMEA Ambassador Camp.
